

Title: CVL / Airway Cart Restocking for Patient Charge Items

Before	After
Multiple methods of informing CS of the need for cart refills, nurses unsure of the "correct" method	One regular process to trigger a restocking for the airway and CVL carts

The Effect

Patient charge items are available when needed and the process to trigger the restocking after items are used is standardized

Name/Team Members	Department	Date	Benefit and/or Cost Savings (Optional)
Bill, Vickie	PICU/CS	2/29/2012	Decrease lost charges and delays
